

REMARKS

A Transmittal of Proposed Drawing Corrections and New Formal Drawings is being filed concurrently. As originally filed, certain amino acid residues in Figure 2 were framed in black. In the Proposed Drawing Correction submitted concurrently herewith, these residues are double-underlined instead. The specification is being amended accordingly to be consistent with the corrected figure.

Applicants' Attorney respectfully requests consideration and entry of the present amendment.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
